Message from the President...

The Most Important Election of our Lifetime! by Robert Kettering

So you're probably thinking, I've heard all this before, maybe even several times before. When I heard someone refer to the upcoming election as the most important of our lifetime I thought the same thing. However, the more I hear, the more I observe, and the more I understand, the more I am convinced that indeed this is the most important election of our lifetime! Why is it so important? Because the democratic party has been taken over by the far left. This is not your father's democratic party! This is now a party led by extremists who prefer socialism over capitalism. If we lose this election, we may actually lose the kind of country we grew up in! Here are just a few of their goals; Unlimited abortion through all nine months paid for by taxpayers like you. Expand Obamacare and eliminate all private insurance. Begin to implement the green new deal at an estimated cost of 100 trillion dollars (that's \$600,000 per household!) Our national debt, currently at 26 trillion dollars pales in comparison.

As bad as all this is, there is something even worse. For the last four years we've watched as this new democratic party, aided by their accomplices in the national media (the fake news), has shown us that there is no limit to their total disregard to the rule of law. We watched as Hillary Clinton destroyed 30,000 e-mails that were under subpoena. Then we watched Robert Mueller waste over 30 million tax dollars searching for some type of crime committed by the President and found nothing. We learned that the Obama administration actually spied on candidate Trump, and after he was elected continue to spy and actually tried to remove him from office. Then we watched the House hold a sham impeachment of the President.

These past four years have shown us that this democratic party is willing to do absolutely anything to achieve their goals! If they were to win and take control of all three branches of government, I believe they would eliminate the electoral college, pack the Supreme Court with several left-leaning justices to insure a liberal majority and add at least four democratic Senators from areas like Washington, D.C. And Puerto Rico. In short, changes would be made to insure that democrats would never lose another election. That's what's at stake in this election.

So let's do all we can, let's work hard and let's pray, pray that Godly men and women will be elected and pray that evil men and women will be defeated in this election. The stakes are very high.

Spiritual Heritage Trip to D.C. Rescheduled for April 1, 2021

"The only thing necessary for the triumph of evil is for good men to do nothing."

Edmund Burke

319 Square Miles: Why We Need to Keep the Electoral College

Recently the newly convened, Democratic-controlled House of Representatives introduced a bill to eliminate the electoral college. It seems that, since they couldn't win the last presidential election under the rules that have existed for almost 250 years, they want to change the rules. Below is an excellent explanation of why this is a very bad idea.

In their infinite wisdom, the United States' Founders created the Electoral College to ensure the States were fairly represented. Why should one or two densely populated areas speak for the whole of the nation?

The following list of statistics has been making the rounds on the Internet. It should finally put an end to the argument as to why the Electoral College makes sense. Do share this. It needs to be widely known and understood.

There are 3,141 counties in the United States .

- Trump won 3,084 of them.
- Clinton won 57.

There are 62 counties in New York State

- Trump won 46 of them.
- Clinton won 16

Clinton won the popular vote by approximately 1.5 million votes.

- In the 5 counties that encompass NYC, (Bronx, Brooklyn, Manhattan, Richmond & Queens) Clinton received well over 2 million more votes than Trump (Clinton only won 4 of these counties; Trump won Richmond)
- Therefore these 5 counties alone, more than accounted for Clinton winning the popular vote of the entire country.

These 5 counties comprise 319 square miles.

The United States is comprised of 3,797,000 square miles.

When you have a country that encompasses almost 4 million square miles of territory, it would be ludicrous to even suggest that the vote of those who inhabit a mere 319 square miles should dictate the outcome of a national election.

Large, densely populated Democrat cities (NYC, Chicago, LA, etc.) DO NOT and SHOULD NOT speak for the rest of our country!

And It's been verified and documented that those 319 square miles are where the majority of our nation's problems foment.
